Wind³Ozone is a device designed and manufactured with the best in electro-medical technology.

Two ISO certifications available for design, production and assistance of our devices :

- ▶ Equipment for aesthetic and medical use : **ISO 9001:2015**
- ▶ Electromedical devices : **ISO 13485:2016**

Each device is designed and assembled in laboratories of our partners through innovative and verified tools before shipment by the most demanding reliability tests.

WindO³zone[®]

Certified Manufacturer 13485

CE
Marking

A device with a CE marking for ozone effective and safe disinfection and sanitation.

- ▶ **WindO³zone** it is an optimal comfort of use and high performance to disinfect and clean up any space in a short time.
- ▶ **WindO³zone** it is also the guarantee to be able to quickly recover sanitary and hygiene conditions in accordance with the provisions laid down pursuant by the EEC.

Portable Device

Composition and properties of ozone.

- ▶ Ozone is a gas composed of 3 oxygen atoms (O₃) which has the great capacity to oxidize and disinfect.
- ▶ Disinfection without chemical additives or detergents, by exploiting its natural oxidizing force.
- ▶ After use, the delivered ozone becomes 100% oxygen without leaving toxic traces or chemical residues.

**The astounding power of ozone
to carry out each
polluted area purification.**

As soon as ozone is released
and comes into contact
with organic matter,
an oxidation reaction occurs,
triggering a rapid disinfection
process and disposal
of any living micro-organism !

To rule out toxic and detrimental factors to your development !

- ▶ Ozone eliminates dust mites that cause allergies and infections.
- ▶ Ozone suppresses fungi, moulds, bacteria and viruses by a natural oxidation process.
- ▶ Natural repellent, ozone helps keep away mites, flies, moths, fleas, mosquitoes, cockroaches, ants, bed bugs and small rodents.

Disinfect and sanitize.

- ▶ Thanks to its weight, higher than air, ozone is deeply penetrating without damaging surfaces, objects and fabrics with which it comes into contact, reaching points that classic wash could not reach.
- ▶ Ozone eliminates bad odours (smoke, cooking or animal odors...) making the environment fresh and odourless. The device not only covers them, but neutralizes them.
- ▶ Ozone also helps to clean up water points and food in small quantities.

Capactuel

Préventive & Réparatrice*

Wind³Ozone[®]

In 4 steps :

1.

Surrounding oxygen enters into the machine.

2.

Collected oxygen is converted to ozone.

3.

The bacteria and viruses elimination process begins on any type of object, tissue and surface.

4.

Once environment cleaned, the system converts rapidly ozone O^3 to oxygen O^2 .

Use of the device.

- ▶ It is recommended to install the **WindO³zone** device in a central position inside the room to be disinfected, free of objects that may obstruct air intakes and ozone outflow areas.
- ▶ **WindO³zone** is originally equipped with On/off preset program in memory. However, it is possible to customize and adjust the cycles according to needs.
- ▶ No human or animal presence is recommended during treatment and thereafter 40 minutes.

Strengths of the system.

- ▶ 100% natural and ecological.
- ▶ Only uses oxygen in the air.
- ▶ No additives, no chemical detergents.
- ▶ No pollutants.
- ▶ Easy to use thanks to the administration interface.
- ▶ Small size, practical, fast and innovative.
- ▶ Fast processing (5 to 60 minutes for 720 m³).
- ▶ No traces, no toxic residues.

Portable Device

WindO³zone[®]

Certified Manufacturer 13485

CE
Marking

WindO³zone it can be easily configured thanks to the front device buttons or with Alexa and Google Home remote voice control !

The adjustment system allows you at any time to :

- ▶ Turn on and off the device.
- ▶ Provide weekly or daily cleaning.
(ex : turn on the device on Monday, Saturday and Sunday)
- ▶ Set the ignition time.
(ex : power up at 6pm every Sunday)
- ▶ Adjust the processing time. (ex : turn on from 12:00 to 1:00)
